

Project Fact Sheet

Date of Fact Sheet: 11/22/10
Project Name: 6th St. Undercrossing – (TIP name 6th St. Bicycle and Pedestrian Linkage)
Location: 6th St. under Hwy. 101, Santa Rosa, CA (Btwn. Davis and Morgan St.)
Approx. Eng. Est.: \$1.1 to \$1.3 mill. (approx. \$500k for ped. / bicycle improvements)
TIP #: Son 090031 **Caltrans EA No.:** 245400/263900

Project Description:

This project will construct the roadway, curb and gutter, ADA sidewalks, pedestrian scale lighting, bike lanes, traffic signal improvements and striping necessary to complete the undercrossing on Sixth Street between Davis and Morgan.

The main portion of the undercrossing (the bridge, excavation, abutments etc. to create the space under Highway 101), was constructed in 06/07 under an approved EIR for the ROUTE 101 HOV WIDENING. (See photos at right for existing condition.)

The project will create a critical link for pedestrians, cyclists, and vehicles to the downtown and railroad square historic district, transit mall and SMART station.
